A variance request was made by Mr. Williamson at 1439 West Lakeshore Drive, the request was to run electricity to his storage building located on his tract of land across the street from his address, for interior lighting and an exterior motion detecting light. Carl made a motion we approve the request. Steve seconded. Motion passed unanimously.

Gail suggested scheduling our regular zoning committee meeting after the town council meeting on the first Tuesday of every month. Carl made a motion we schedule the zoning committee to meet directly after each town council meeting, with Cheryl sending prior notice to the zoning committee members if a meeting was not necessary due to no variance requests.
